The Seto Inland Sea and guntû’s routes

Setouchi is a beautiful waterway that interweaves an archipelago of more than 700 islands. We offer more than 10 routes through eastern, western, and central Setouchi. You can choose your favorite route, or customize a route according to islands you want to visit and off-ship activities you want to experience. Going ashore on islands along the ship’s route using our dedicated speed boats designed by Yasushi Horibe, you have a chance to visit places not normally available for sightseeing.

– Guntû’s routes

○ Westward routes

Stretching from the islands of the Shimanami Kaido and Tobishima Kaido to the Kutsuna Islands and Kaminoseki, westward routes travel through waters rich with the romance of history, home to Miyajima’s Itsukushima Shrine and Omishima’s Oyamazumi Shrine. The routes navigate between islands separated by narrow “Seto” straits, letting you glimpse the scenery of everyday life in Setouchi up close.

Off-ship activities

Morning walk at Miyajima and visit to Itsukushima Shrine, tour of terraced fields at Kashima, experience of the rapid currents of the Kurushima Strait, etc.

○ Central routes

Central routes cruise through the waterways of the Shimanami Kaido, a chain of six islands linked by seven bridges, the Tobishima Kaido, a series of five islands linked on the west end to Kure, and Takuma Bay and the Shiwaku Islands in Kagawa. The central routes have features of both eastward and westward routes, condensing the delicate and bold, still and dynamic allure of Setouchi.

Off-ship activities

Walk at the port town of Tomonoura, scenic tour at Mitoyo, visit to Oyamazumi Shrine at the sacred island of Omishima, etc.
