

A three-day voyage to explore abundant nature and island culture NEW

Mt. Goishi

This three-day route sails through the magnificent scenery east of Onomichi. On the first night, enjoy the lights of the Mizushima Industrial Complex off the port side and pass under the Great Seto Bridge. On the next day, go ashore to explore Shodoshima, where a nostalgic landscape has been carefully passed down from generation to generation. The island's seasonal produce sustains industries such as soy sauce, somen noodles, and olive oil that continue to develop today. While encountering reminders of life in centuries past, get an intimate view of the beauty of the Shiwaku Islands, a node in maritime networks since ancient times, and the deep culture that emerged among the natural beauty of the Bisan Islands.
